APPLICATOR

PINS

PRODUCT DESCRIPTION

The metal ear tag applicator is a robust and reliable tool designed for the fast and safe application of ear tags on sheep, goats, pigs, and cattle. Its fully metal construction provides high durability and a long service life, while the locking mechanism allows for safe transport and storage. It is compatible with all types of visual and electronic ear tags, making it the ideal choice for farmers, veterinarians, and livestock breeders. The applicator is supplied with a special metal pin for correct ear tag attachment during application. Replacement pins are available separately.
