CATTLE EAR TAGS

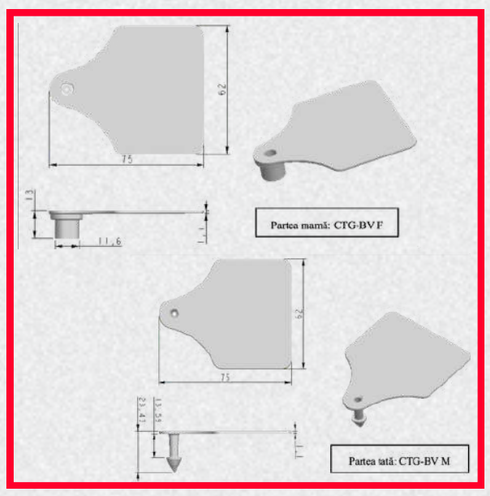

CTG-BV

PRODUCT DESCRIPTION

CTG-BV is the plastic visual ear tag for cattle produced by Crotag International, designed for high durability, clear visibility, and secure application. Composed of two parts and laser-engraved, it offers excellent longevity, high-quality materials, and a fully tamper-proof locking system. The kit consists of two plastic ear tags (CTG-BV).

PRODUCT SPECIFICATIONS

Manufacturer	Crotag International
Official name	CTG-BV F (female part) + CTG-BV M (male part)
Intended use	Visual identification of cattle species
Colour	Yellow
Dimensions	L: 75 mm, w: 62 mm
Material	High-quality polyurethane, resistant to water, alcohol, oil, and ammonia; a flexible material adapted for long-term use in varied conditions. Metal pin: ensures clean perforation, reducing the risk of infections and irritation
Structure	Two components, female and male, made of highly flexible thermoplastic, designed specifically for the ears of large livestock animals
Engraving	Permanent laser engraving with high visibility and resistance to abrasion
Locking system	Tamper-proof; once closed, the ear tag cannot be removed without being damaged
Compatibility	Compatible with universal applicators
Animal comfort	Application with minimal tissue damage, reduced risk of infection, and maximum rotation of the component to prevent excessive friction
Durability	Product tested for UV exposure, tensile strength, and abrasion resistance
